

Naila Yaqoob

Agentic AI Engineer & Multi-Agent Systems Specialist

Karachi, Pakistan · nailayaqoob86@gmail.com · +92-304-8311189 · [Portfolio](#) · [GitHub](#) · [LinkedIn](#)

TECHNICAL SKILLS

AI / Agents: OpenAI Agents SDK · CrewAI · LangChain · RAG · Embeddings · MCP Servers · Custom GPTs

Languages: Python · TypeScript · JavaScript

Frameworks: FastAPI · Next.js 15 · Chainlit · Streamlit

Databases: PostgreSQL · pgvector (Vector DBs)

DevOps: Docker · Docker Compose · GitHub Actions · Vercel · Railway

Methodology: Spec-Driven Dev (SDD) · Prompt Engineering · Agentic Workflows

SERVICES OFFERED

- AI Chatbot for Website (24/7 lead qualification)
- RAG Document Assistant (PDF / knowledge base Q&A;)
- AI Business Automation Agent (scheduled workflows)
- AI Employee / Virtual Assistant (multi-agent)
- Fullstack AI Web Application (end-to-end)
- Custom GPT Development (brand-voice fine-tuning)

PROFESSIONAL SUMMARY

Agentic AI Engineer with 11+ years of professional experience spanning science education and AI systems development. Specialises in multi-agent architectures, RAG pipelines, and spec-driven development (SDD). Proven track record delivering production-grade AI products — from real estate RAG assistants to WhatsApp-native clinic automation agents — using Python, FastAPI, OpenAI Agents SDK, and CrewAI. Exceptional communicator: a decade of teaching complex Chemistry means clients always understand exactly what's being built and why.

EXPERIENCE

Agentic AI Engineer (Freelance) — Present

Self-Directed · Panaversity / PLAIC

- Built AI Employee — multi-agent virtual assistant (OpenAI Agents SDK + Chainlit + FastAPI + PostgreSQL); demo live on YouTube.
- Built RAG Document Intelligence Chatbot: PDF ingestion, vector embeddings, cited answers — reducing document search time from hours to seconds.
- Built AI Clinic Receptionist: WhatsApp-native appointment booking agent (FastAPI + OpenAI Agents SDK + Meta Cloud API + SQLite); deployed live on Railway.
- Built AI Book Intelligence System: embedding-based recommendation and summarisation engine for bookstores and e-learning platforms.
- Built fullstack AI Task Manager: TypeScript + FastAPI + PostgreSQL + Docker with integrated AI assistant for team task prioritisation.
- Applied SDD methodology with Claude Code across all projects; reusable agent skills and cloud-native blueprints delivered as standard.

High School Science Teacher — Present

School Education Department, Karachi

- Delivered O-Level Chemistry curriculum; consistently above-average board results over 11 years.
- Mastered breaking down complex concepts for non-technical audiences — directly transferable to AI client communication and documentation.
- Deadline-driven professional: managing 30 students daily built deep respect for commitments and structured delivery.

KEY PROJECTS

AI Clinic Receptionist Agent

Python · OpenAI Agents SDK · FastAPI · Meta WhatsApp Cloud API · SQLite · Gmail API · APScheduler · Streamlit · Next.js

WhatsApp-native AI receptionist handling appointment booking, rescheduling, FAQ responses, automated reminders, and branded HTML confirmation emails. Streamlit admin dashboard + embeddable Next.js widget. Deployed live on Railway.

AI Employee — Virtual Business Assistant

Python · OpenAI Agents SDK · FastAPI · Chainlit · PostgreSQL

Multi-agent system for customer support, task automation, and 24/7 business ops. Live demo on YouTube. github.com/NailaYaqoob/Ecommerce-AI-employee

RAG Document Intelligence Chatbot

Python · RAG · Embeddings · FastAPI · PostgreSQL

Ingests PDFs/docs into vector store; answers natural-language questions with source citations. Cuts document search time from hours to seconds. youtu.be/Jauag26t4V0

AI Book Intelligence System

Python · RAG · Embeddings · OpenAI

AI-powered book recommendation and summarisation engine using natural-language queries. github.com/NailaYaqoob/ai-driven-robo-book

Fullstack AI Task Manager

TypeScript · FastAPI · PostgreSQL · Docker

Production-ready task manager with auth, role management, and built-in AI assistant. github.com/NailaYaqoob/fullstack-todo-app
